Faridabad, India | +91 9810455915 | mananr0135@gmail.com | LinkedIn | GitHub | Portfolio

Summary

Software Engineer with 1.5 years of experience building responsive, high-performance UIs for mobile and web. Deep expertise in Flutter widget systems, state management (Provider, Riverpod), and component-driven architecture. Experienced in designing accessible, user-friendly interfaces, optimizing rendering performance, and delivering polished cross-platform experiences.

Skills

Languages: Dart, JavaScript, TypeScript, C/C++

UI Frameworks: Flutter, React.js

State Management: Provider, Riverpod, setState, React Hooks

Styling: Material Design, Custom Theming, Responsive Layouts

Architecture: MVVM, Clean Architecture, Component-Driven Design

Tools: Git, GitHub, Android Studio, VS Code, Figma

Experience

Software Development Engineer - I Oct 2025 – April 2026

Sanora India Pvt Ltd

- Developed scalable mobile applications with a strong focus on Android architecture principles and performance optimization.
- Implemented clean architecture patterns (MVVM) ensuring modular, testable, and maintainable codebases.
- Integrated RESTful APIs for authentication, content delivery, and real-time features with efficient error handling.
- Contributed around 15 major features, over 10,000+ lines of production code across 2 live projects, and resolved 100+ critical bugs.
- Optimized UI performance and navigation flows for smooth user interaction across complex screens.

Associate Software Developer Oct 2024 – Oct 2025

SwaLay Digital

- Built scalable and high-performance cross-platform applications with Flutter.
- Implemented efficient state management using Provider, Riverpod, and setState for maintainable app performance.
- Collaborated on designing responsive and user-friendly UI, improving overall UX across Android and iOS.
- Optimized application performance and reduced build times through code refactoring and best practices.

Projects

Subject Mastery | Play Store

- Designed and built a pixel-perfect, scalable UI following clean architecture and MVVM separation of concerns.
- Implemented complex interactive components including real-time quiz flows, progress tracking, and animated transitions.
- Optimized widget rebuild cycles and rendering performance for smooth UX across low-end Android devices.
- Integrated ML-based proctoring UI with seamless camera overlay and real-time status feedback.

Sattelite | Play Store

- Built a fully offline UI with intuitive document scanning flows and structured data review screens.
- Designed dynamic PDF preview and export interface with custom layout rendering using the `pdf` package.
- Ensured responsive layouts and accessible UX across varying screen sizes and orientations.

QuestAI – AI Agent Interface

- Built a real-time chat-style React frontend for AI agent interaction with streaming response rendering.
- Implemented optimistic UI updates and WebSocket event handling for low-latency user feedback.
- Designed a clean, minimal component system for message threading, loading states, and error displays.

Education

JSS Academy of Technical Education, Noida Aug 2021 – Jul 2025

Bachelor of Technology in Information Technology

CBN Sr. Sec. School Apr 2020 – Jun 2021

Higher Secondary Education
